Dr. Nikita Rawal is a specialist in Obstetrics & Gynaecology with over 20 years of work experience. Dr. Rawal practiced in the United Kingdom for fourteen years and moved to India in 2013 specifically to make available modern treatments in Gynaecology to the women. She is known for her ethical and evidenced based medical practice. With her experience, competence and personalized approach towards every patient, she is one of the most sought after Gynaecologist. Her extensive knowledge, understanding and compassion have played a big role in the success of the treatments for her patients.

In England, Dr Rawal underwent higher specialist training and did fellowship in Reproductive Medicine. Because of her commitment to the speciality she was awarded the prestigious FRCOG (Fellow of Royal College of Obstetricians & Gynaecologists UK). She has several papers and publications to her credit. Dr. Rawal is a much sought after speaker and has delivered numerous invited lectures at various National and International Conferences. Dr Rawal has keen interest in teaching and training. She has a Fellowship Course for gynecologists who need training for IVF and Assisted Reproduction. There is active academic programme throughout the year at Rawal Fertility and she regularly arranges workshops in other cities as well.

A firm believer in holistic medicine, Dr Rawal likes to use complementary & alternative therapies to treat a patient. Before using western medicine & surgery, she first likes to educate patients on lifestyle changes and self-care to promote wellness. This may include diet, exercise, psychotherapy, relationship, spiritual counselling, and more.

“Some people are lost after a personal tragedy and some rediscover themselves.”

Dr Rawal is one of those strong woman who didn't lose hope even after losing her son in the first year of returning from UK. She has started an NGO, Ishan Foundation, in the loving memory of her son. Her NGO is dedicated to the welfare of children and women. In a short span, Dr Rawal has been engaged in several social awareness initiatives such as "Pink Health" – a national programme to combat anaemia in adolescent girls and "Save the Girl Child". Dr. Rawal's passion has always been to focus on preventive health, especially in the young girls and women as they are the mothers of tomorrow. Currently, she is focusing her attention on combating Sexual Abuse, especially in young girls.
